TO WHOM IT MAY CONCERN:

Please be advised that all our brand Taste of the Wild and any other Diamond branded products do not contain Ethoxiquin in the fish meal used as a pet food ingredient.

Our ocean fish meal is preserved with Naturox. It's a natural preservative made with mixed tocopherols (vitamin E compounds) and rosemary extract.

In additions please be advised that all our fresh meat ingredients are all hormone and antibiotic free. The meats are tested on the processing line by USDA field agents for these substances.

If you have any questions please let us know.

David Jack

A handwritten signature in black ink that reads "David Jack". The signature is written in a cursive style.
